

## Don't Sacrifice Economy for Neatness

Nowadays the price of clothes isn't so important as care in buying them.

There are lot of men who make a better showing because their money "goes farther".

For example, the man who wears Clothcraft Clothes. He pays from \$10 to \$25 for a suit that gives him everything to be desired in looks and service.

If you want quality as well as moderate prices, look over our stock of men's furnishings and go home with a new idea of how to dress.

E. B. THOMPSON.

TO THE REPUBLICAN VOTERS OF ROCKCASTLE COUNTY:

In the last issue of the Signal I noticed another pretty picture of my Opponent and almost a page of explanation. I have read the article several times trying to ascertain which he intended it for, an amended petition or the second chapter of a continued story, but I must confess that I have been unable to properly classify it. Even now it dawns upon me that it may be a highly classic form of "Blank verse".

He says that I did not answer the questions asked in his first letter. Solomon, the wise man, said, "Answer not a fool according to his own folly, lest thou also be like unto him."

He seems to desire to make this a "Wet and dry" fight. Ed do you know there is a law against the sale of whiskey in this county. Do you know that there is a law against having liquor in one's possession for the purpose of sale? Do you know that there is a law providing that Rail Road and express books shall be prime facie evidence against one so charged? You said that the "Boot Leggers" are fighting you. Evidently you know who they are. You also say that they have ordered Six thousand gallons, right under your nose, during the last year of your "Strict but fair and impartial enforcement of the law". My God! What an admission from one who is supposed to represent the law and is clothed with its power and sanctity. You should be ashamed to tell it. Much less post it in public places. If your statements and figures are true, you stand convicted before God and man for your inability or insincerity. When you took the oath of office, you raised your hand to God and affirmed to him before men that you would do your utmost to protect this county against this Monster Dragon, but your figures show and the people know that from the very day your term of office began, that he has been scott free, and every day you see men under his magic spell, stumbling on every road and street, while the whole County writhes in his clutch, and his hard tail flails poor bewildered, mangled, moulting children, while death and his carion horde feeds fat on your three and one half years of "Strict but fair impartial enforcement of the law". Every drop of that six thousand gallons sold is an indictment against your feebleness or laziness.

You made the inference that I am responsible for the law allowing liquor to be shipped into this county. I will answer that by saying not one word of it is true and you know it; and you made it with a full knowledge of its falsity.

You seem to be very much concerned about me being eligible. (No one else seems to mention it.) According to your figures, you say I am short one day. Granting all that to be true, (which it is not), I ask you, are you coward, base enough to take advantage of it? Would you have the gall to try to force your self upon the voters in such a weak and cowardly manner? Are you afraid to stand on your record of "Strict but fair and impartial enforcement of the law"? Are you afraid to fight? Are you devoid of manhood? If you are, and if I were in your place, I would take down that big flag on My front porch, which represents patriotism and manhood and swear that I was a sneaking coward and that manhood had never found a lodging place in my little simple minded gizzard.

You say that I did not attack your personal nor official record. I am not going to attack your personal record. So far as I know you are a good little boy. In fact, so good, you are good for nothing. All you lack is being a typical "Mamma's little boy" is a few bewitching little curls around your dainty little ears and some ruffles on your shirt. As for your official record; I have been telling the voters that you have none. But maybe, I am wrong, for surely, as rich as you are in mental endowments and as prodigal as your labors have been, you may have made lavish contributions to the official welfare of the County. But you know that most of we people of the County have some what modest intellectual attainments and are not highly specialized perhaps, in your exalted and mysterious method of state craft. So for our special benefit I ask you to throw an illuminating flare upon the actual situation. And to that end, I challenge you to name the times and places in the County where you will go on the stump and tell us all what your record is, then if it is not "Puncture proof" I will take a malicious delight in murdering it. I believe the people would enjoy that better than this newspaper stuff.

Yours heartily,  
E. B. THOMPSON.

## LIVINGSTON

Dr. R. G. Webb has purchased 40 lots on the Livingston heights and 2 dwellings from J. W. Sams of Louisville. The dwellings will be put in first class condition for renting.—Mr. James Maret of Boone-Way fame, was here last Tuesday on his way from Mt. Vernon to Winchester where he has a position in the good roads

## TO THE REPUBLICANS OF ROCKCASTLE COUNTY:

I hereby announce myself as a candidate for the office of County Attorney of this county, subject to the action of the Republican primary election to be held on August 4, 1917.

In so doing I feel that I am qualified to perform the duties of the office from my past experience as an official and as a practitioner of the law.

If nominated and elected I shall strive to the end that every penal law that is written on our Statute books is vigorously enforced, especially the gambling and liquor laws. I believe in strict economy in the handling of public moneys, in a speedy liquidation of the County's indebtedness, and in the maintenance, improvement and betterment of our public highways in a businesslike manner, especially our dirt roads.

Your support will be appreciated.

Very sincerely,  
S. D. LEWIS.

movement. He was with us several hours and we enjoyed his presence very much and we talked over all the past duels that we had fought with the pen and we would not be surprised at any time for him to bring up hostilities again. But if he will let us alone we will be quiet, but if he starts something then look out something is going to drop.

William Brady was in Livingston Tuesday.—W. A. Warren, who has been concreting the Dudley tunnel, has completed the job and moved his cars on the L. & E. division of the L. & N.—Robert Griffin, who has been in Covington for the past week, has returned home.—S. C. Franklin, L. & N. watch inspector was here Monday between trains enroute home from Lexington to Mt. Vernon, where he had been to visit his mother who has been quite sick. He reports her much improved. Mrs. I. A. Mann, of Maysville has been with her parents, Mr. and Mrs. J. H. Walton for a few days.—Mr. and Mrs. Edgar S. Albright of Mt. Vernon, Editor Signal, stopped here on his way from London to Mt. Vernon. They came by way of Parkers creek and then over Gauley. If you want to get a fight on your hands ask the Editor how he likes to motor over the Gauley route.—Mrs. Ed Quinn, of Paris, is visiting her parents, Mr. and Mrs. J. B. Hayse. Miss Bulah Quinn, of Paris, is visiting Miss Juliette Griffin.—J. N. Griffin candidate for Judge, was here Saturday and informed us that the outlook for his nomination was promising and he seemed well pleased with the outlook.

Mrs. J. W. Higgins visited relatives near Mt. Vernon Monday.—Miss Risse Oliver, of Winchester, visited Miss Maria Rambo Tuesday and Wednesday.—Mrs. D. B. Rambo and children were in Louisville Wednesday and Thursday.—Mrs. J. H. Browning has returned from Wildie where she has been visiting relatives.—Mrs. O. W. Turpin, of Brodhead came down from Richmond Thursday and stopped off with Mrs. W. M. Owens for a few days.—Misses Ida, Bessie and Myrtle Hamlin, of Mt. Vernon, have been visiting relatives here for the past few days.—Miss Dora Mullins, of Mullins, visited relatives here Tuesday.—It seems that our friend, the Brodhead correspondent, is between the deep blue sea and the middle of a bad fix and is trying hard to get himself together and make a superhuman effort to deliver a broad side shot at us but his thoughts and pen will not work in unison now. My friend, we always sympathize with a man that wishes to do and cant.—But you have read in the "good book" where a man was chosen to preach and had a certain man as his spokesman. Perhaps you could prevail on some one in Brodhead to come to your rescue but we will give you a little advice in the out set you know the bible warns us all of how we entertain strangers. Some, by so doing, have made the mistake of their lives. Did this ever occur to you, my friend? He claims that some med have a good memory mixed with a heap of self possessed nerve. We believe he is right, for several years ago we visited the beautiful

little town of Brodhead and on our return home we came up a small creek, and following this to its source, we passed through some beautiful and some rough country, and since we have learned that this creek is known as Negro creek, and upon its beautiful banks our friend, Johnathan, first saw the light. Oh, what a great thing is memory! So our friend can remember hearing the wind playing lovely tunes in the tops of the pines and hearing loud and shrill voices of the wild cats echoing from one mountain to another. So our friend must have the nerve to have stood all of this. But since he has taken up his abode in the good little town of Brodhead, and trying to cross swords with the writer, we will say, nerve is a great thing.—Near the Masonic brick stands a pole near 70 feet high, and from the top of this pole hangs the stars and stripes 8 by 16 feet proudly floating in the breeze, and when we look upon this emblem of our country we think of what it cost our fore fathers to establish and to hand this beautiful emblem down to us. But to day not only does this flag float to the breeze in our own dear country but it has crossed the waters and can be seen on the battlefield of France. May God bless this flag where ever it may float, for we know it means freedom, liberty and protection.

It is said that Adams attempted to cut Riddle with a knife when the marshal struck him over the head with his revolver, knocking him to the ground. After the boys sobered up they were taken before Judge Haggard, paid the price of about \$25.00 and it is hoped will not attempt to repeat the dose again.—Mr. and Mrs. Harry Chastain, of Hiatt, were guests of Mr. and Mrs. A. ## CHOLERA MORBUS.

This is a very painful dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

This is a war measure; and one

more unwilling to go to the front.  
That class of people should see  
the hardest part of service and  
one purpose of the Labor Cen-  
sus is to see to it that the loafer  
is put into service where he can  
best serve.

# DISPUTANT A

Farmers are very badly rushed  
with their work on account of  
so much wet weather. Crops are  
growing well. Most every  
body is doing all they can.—  
There are several candidates  
in our midst last week shaking  
hands and giving away their  
cards.—V. S. Payne was called  
back to work on rail road he is  
an operator but has been off  
for sometime.—There is an oil  
drill in our neighborhood. The  
first hole will be put down on  
R. J. Abney's land. Of course  
every body is hoping that they  
will strike oil.—Robert Shearer  
and family visited Sherman  
Chastain's family Sunday.—Rev.  
Geo. Childress has bought Wall  
Crouchers farm. Consideration  
\$925.00. We are glad to have  
Bro Childress in our midst.—  
Uncle Orville A. Cope, age 74  
passed away June 12th. He was  
a confederate soldier in Civil  
War. He leaves a wife and sev-  
eral children and grand child-  
ren to mourn his loss.—The in-  
fant child of Nick Chastain died  
June 14th.—On Monday even-  
ing June 11th, our large church  
house was packed almost to the  
limit with progressive, patriotic  
men, women, boys and girls to  
hear Mr. Collins, Superintendent  
of County Agents discuss the  
farm problems which are  
confronting the farmers, especial-  
ly the rural people.—The Clear  
Creek Singing Class composed of  
some twenty-five voices sang sev-  
eral well selected songs after-  
which Mr. Collins was introduced  
by our hustling Robert F.  
Spence, who always has some  
thing new and worth while to  
talk about. Mr. Collins discuss-  
ed the war situation in general  
and what it means to the rural  
people, also the labor situation.  
He called for volunteers to take  
the census of the farmers in our dis-  
trict in regard to farm labor  
wanted to harvest crops etc.  
O. M. Payne, G. V. Owens and  
R. A. Swinford all merchants  
and progressive men responded  
and made the remark that they  
were willing to do their "bit" to  
help in any way they could.  
We had a real interesting and  
helpful meeting and every body  
went away feeling that their time  
and loss of sleep. We feel like  
our neighborhood has waked up  
and is now coming to the front

## EVERY DAY

the L. & N. distributes \$148,300  
throughout the South for operation of  
its trains and up-keep of its property.  
This daily distribution is made possible  
through the successful management of a  
constructive railroad which is an impor-  
tant factor in Southern progressive devel-  
opment and commercial supremacy.

Because the L. & N. realizes that its  
interest and the interest of the people are  
mutual, it co-operates in every possible  
manner for better farms, (the foundation  
of all prosperity); for better industrial  
conditions; for better commercial co-  
operation; for better educational facili-  
ties; for more cordial social relations.

Through their share in the L. & N.'s  
daily distribution of \$148,300 many  
individuals and enterprises are able  
to realize their desire for business  
prosperity and personal happiness.

A considerable portion of the  
\$7,200.00 paid daily for taxes is  
devoted to Southern education.

One out of every ten people  
derives his or her means of livelihood  
directly or indirectly from the railroad  
industry. The L. & N. operates in  
nine Southern states. Therefore the  
ability of the L. & N. to operate  
successfully is a matter of vital con-  
cern to Southern prosperity.

EVERY time the sun  
sets on the South-  
land, the L. & N. pays  
out \$148,300 in the  
operation and upkeep  
of its line of road.

It costs every day—  
\$69,900 for wages,  
\$47,700 for material  
and supplies,  
\$23,500 for interest  
and rent,  
\$7,200 for taxes.

## WINCHESTER

By "J. M."

It was with much satisfaction that the old Boone Way man learned of the conclusions reach- ed in the conferences looking to routing of the Dixie-Boone High- way connecting point between Rockcastle and Laurel counties. It was fine and really the proper thing and will be satisfactory to the larger number of people. While everyone is not entirely pleased, the larger number are, and that "kivers the ground."

Dr. Walker Owens and David Craig, two of Mt Vernon's good boosters motored to Winchester Saturday and returned Sunday.

Dr. M. L. Myers and family, of Winchester, returned Thurs- day from a motor trip to Mt. Vernon, their one time home. They were accompanied by Miss Risse Williams who will spend some days in the capital of Clark Dr. Myers is considered one of the leading dentists in Kentucky.

Miss Rose McCord, formally principal of Langdon Memorial School Mt. Vernon, now field agent for Mountain schools was here last week, accompanied by Rev. Michel, who is one of the "sweet singers in Israel". They were working on business and financial affairs. Miss McCord, is doing a great work for the mountians.

Russel Proctor, a Mt. Vernon boy, telegraph operator, is here on vacation and will likely be assigned to work in Winchester.

William Sparks, of Mt. Ver- non, is here with his boy friend, Raymond Myers. Raymond is showing him a good time.

Dr. Owens and David Craig were mighty pleasant visitors we found Sunday morning at the Brown-Proctoria hotel. That home folks feeling made the writer feel good. That little old Ford of the Doctor's can go to any place.

The Sheriff has paid out on gen- eral road claims \$3489.41, as shown by vouchers filed with statement filed herewith, which shows that this fund is indebted to him in the sum of \$542.54, and it also appears that the Treas- urer has paid on this account \$272.00; and there appears unpaid and out-

standing claims against this fund the amount of \$137 33, which shows a deficit in this fund to meet the claims allowed against it in the sum of \$951.87

There is filed with this report an itemized statement of all claims allowed against the general county road fund, and receipts showing to whom payments were made by the Sheriff against this fund.

There is also filed with this report a statement showing the value of taxable property in each of the three graded common school districts of the county and the number of polls in each of said dis- tricts.

Since all accounts against the county, except road accounts, are paid by the County Treasurer, it can not be shown here how the other accounts of the county now stand, except the bridge account, and as nothing has been paid out on that account either last year or the year before, there is now in that fund the sum of \$1,529.91. The Treasurer's settlement will have to be looked to to ascertain how the other accounts stand.

All of which is respectfully submitted.

# THE MOTOR AGE

The chivalrous Knight, mounted on his faithful steed, clothed in his suit of steel and armed with his trusty sword and lance was once the match for any adversary the world could offer. Above him was the clear blue sky, beneath him was the solid earth, around him was the pure air: he feared no enemy he could not see.

To day the knight is thought of as a character of romance. In our present war he would be a miserable failure—Progress has made him useless.

The sea was once proud of her fleets of battleships, of her huge commercial vessels. But these ships would only go the way the wind blew and man was dissatisfied.

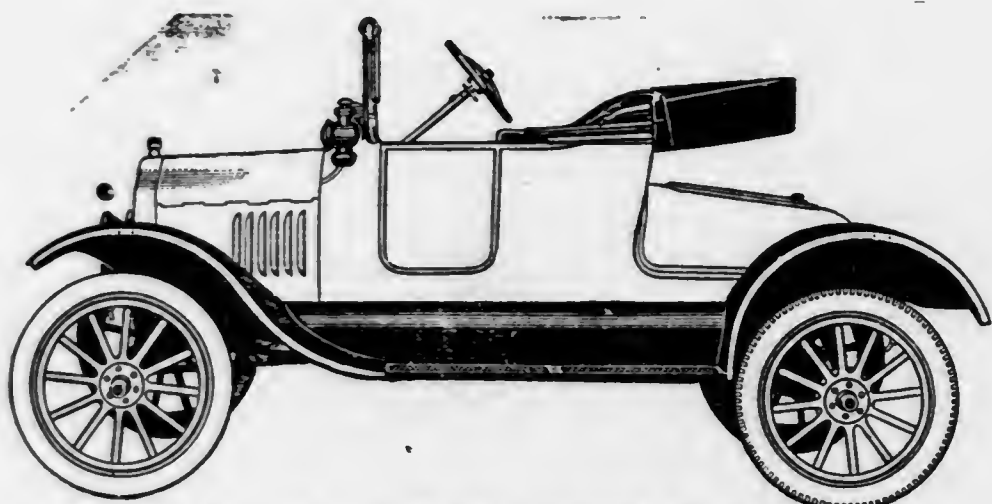

These ships have long since been discarded and are now only relics of a past age. This age, the age of progress, has proven them inefficient.

Paul Revere, as well as other such speedy messenger bearers were once the pride of our country.

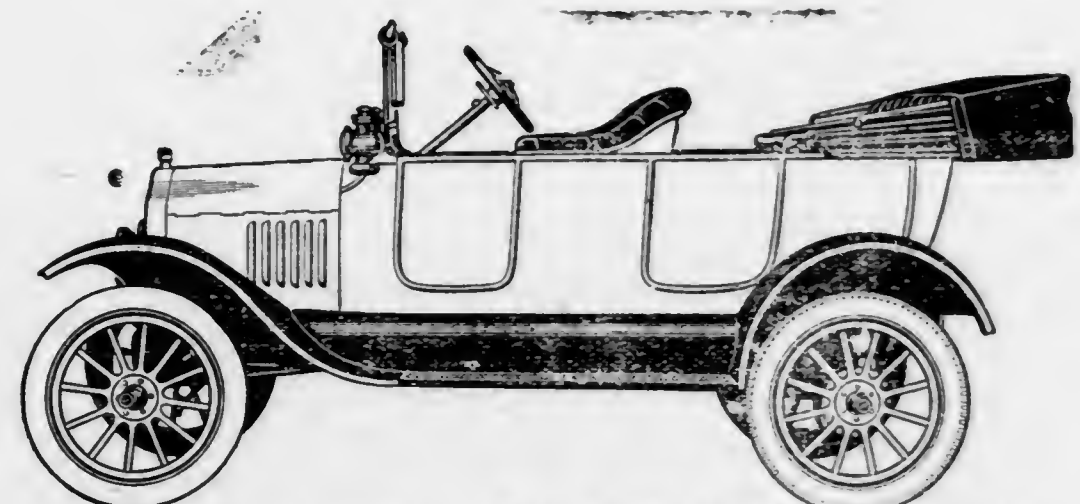

Electricity has proven a better, quicker and a more economical method of communication; and so to-day there is no place for these once necessary messengers.

There was once a time when from ocean to ocean the predominant, and in fact the only method of transportation, was the horse and carriage.

To-day motor power has proven a quicker, safer, a more economical means of travel. Consequently, year by year, month by month and day by day, against extreme opposition the motor car has forged its way ahead and the horse is fast losing ground.

As far ahead of the Knight as

Just So Far  
Is The Motor Car Ahead Of  
The Horse And Carriage.

In this age of progress it is no wonder why the motor car has come into existence, it is simply in line with the other great changes that have taken place. Man has searched the point where he is no longer satisfied with what was—He must have what he needs and what he deserves.

The automobile (Ford) is no longer an experiment. Rough usage, abuse, convenience and economy have proven it practical.
